REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

Art Unit: 2616

An apparatus for performing idle handoff, comprising (inter alias)
means for compiling, at a mobile station, a first set of base stations with received energies exceeding a predetermined threshold, means for receiving a second set indicating the base stations with resources to provide communications to the mobile station, and means for performing an idle handoff by the mobile station in an access state to a base station common to the first set and the second set , as indicated in independent claim 1.

An apparatus for performing idle handoff, comprising:
a searcher configured to measure received signal energies from a plurality of base stations; and a control processor configured to:
compile a first set of the base stations with received energies exceeding a predetermined threshold; receive a second set indicating the base stations with resources to provide communications to the apparatus; and perform an idle handoff in an access state to a base station common to the first set and the second set, as indicated in independent claim 11.

A mobile station, comprising:
an antenna configured to receive signals; a control processor configured to: compile a first set of the base stations with received energies exceeding a predetermined threshold; receive a second set indicating the base stations with resources to provide communications to the apparatus; and perform an idle
